

BCA-IG SAS Meeting, Grenoble July 2/3

Information and joining instructions for Delegates.

Registered participants should obtain access badges and meeting notes on arrival at the gatehouse of the ILL/ESRF site. This is adjacent to the on-site guesthouse. If arriving late then roomkeys are held at the gatehouse which is manned continuously. Let the organisers know, if you haven't already done so, if you intend arriving on site after 2100.

1. Karine Sultan of the ILL is the workshop secretary, and messages can be sent to her: sultan@ill.fr 00-33-476207356 (Internal telephone number 7356) fax 00-33-476207120

Address: Large Scale Structures Group, Institut Laue Langevin,
6 rue Jules Horowitz, BP 156 38042 Grenoble cedex 9 France

2. Travel information on getting to Grenoble may be found at

http://www.ill.fr/pages/menu_g/howto come.htm or
<http://www.esrf.fr/AboutUs/CompanyInfo/Access>

3. Buses/Trams The 34 bus from the town (direction Centre Nucleaire/Sassenage stops at the gate of the ILL. The Lyon airport Satobus, if requested will stop at the roundabout on the main road (Avenue des Martyrs) (Say "SYNCHROTRON!! and hope) or (more formally) Place de la Resistance otherwise terminates at the stations. The 34 bus passes in front of the Railway Station. (SNCF)

Bus tickets may be bought from the driver and are valid for one hour in a uni-directional route. These tickets must be entered into the stamping machine at each entry. For trams this must be done before entering the tram. Most tram stations sell single tickets or a ten-trip etc. ticket. Several people can travel on such a ticket provided it is stamped the appropriate number of times at each entry. The 34 bus into town is labelled POISAT - PREMOL. The return bus is labelled Polygone Scientifique or Sassenage Le Chateau. The bus timetable is posted in the bus stops outside the site entry.

The tram B terminates at the City Internationale, which is about 1.5km along the road from the ILL, and runs quite late. The centre of town with several taxi ranks in Place Grenette and Place Victor Hugo etc., is about 5km from the ILL. Trams on lines A and B pass the stations where there is also a taxi rank.

4. WIFI access on the joint site. Several open networks are available, depending on the location. The ESRF network is directly connected to the internet. There are a number of PCs on open access in the Guesthouse; these are connected directly to the internet. The ILL WIFI is inside the firewall and proxies must be set to browse the outside internet; either set the browser to detect proxies automatically or use the configuration script <http://proxy.ill.fr/proxy.pac> (The proxy server is proxy.ill.fr, using port 8888)

5. Dinner on Sunday July 1st is not included.... It is likely that the site canteen will be open 19:00-20:00 on the Sunday evening with a limited service. You are recommended to eat in Grenoble, but for those wishing to stay on site you must show your badge at the self- service check-out for payment. There are many restaurants in Grenoble; a swathe of pizzerias flank the right hand river bank. After about 21:30 it is more difficult starting a meal, though the brasseries in the centre of town near Place Grenette offer service till later.

6. Meeting Points:

The Tour of the ILL Facilities will start from the main hall of the ILL, Building ILL4, at 09:00 on Monday.

The conference room for the presentations will be room **214** (NOT 215 as previously advised) on the second floor in the CIBB Building.

7. Dinner on Monday 2nd July. Transport will leave ILL at 19:30 to La Panse restaurant in Grenoble and return at 23:00.

The meal is a set menu (unless you have made a special dietary request).

-salade dauphinoise et toast au st Marcellin

-carbonade de boeuf a la bière mandrin, gratin dauphinois et fagotin de haricots verts au lard

-soufflé glacé menthe chocolat

*Vins : Côte du Rhône Rouge (Domaine de Chantecôte)
Roussette de Savoie (Blanc)*

Meeting Sponsors:

PANalytical, Hecus, Bruker AXS, Anton Paar and Rigaku.
