

I am Dr Eduard Rusanov, crystallographer from Kyiv/Ukraine (Institute of organic chemistry NAS Ukraine). At the moment I am in scientific exchange visit to Brazil (Manaus, IMPA) with my colleges Dr. O. Kostyuk and Dr. O. Rozhenko and our official visit here is finishes at 2nd of March. We have reserved back flight tickets Manaus-San-Paulo(2 March), San-Paulo-Istanbul(2-3 March) and Istanbul-Kyiv (4 March) by Turkish Airlines. But as you know Russia starts horrible bloody war in Ukraine several days ago, all airports are destroyed, all flights to/from Ukraine are cancelled. So, I have no idea how long it will take and how to go back because a lot of refugees moves to the west border of Ukraine and at the moment there is humanitarian collapse, extremely dangerous situation in Ukraine and Kyiv especially with restriction to move in Ukraine and Kyiv city. So, I am not sure that I will be able to reach Kyiv later and there is way I asking you for support. My wife and son stay in Kyiv and they could not leave city now. I would ask you, maybe you have some possibilities to support me by temporary job for month or so? I will be very appreciated if you can help and believe I can strengths your crystallographic group at the University and can do something useful for you. If you know somebody who need my qualification, please share this letter with your colleagues could be interested. If you can accept me, please let me know ASAP, and I will reserve flight from Istanbul to another destination place if you will be so kind.
