

British Crystallographic Association

Registered charity #284718

Spring Meeting – 12-14th April 2005 Loughborough.

X-Ray Fluorescence Sessions

The BCA is pleased to announce that parallel XRF sessions will be added to the crystallographic content of the 2005 Spring Meeting. Both wavelength and energy dispersive techniques will be covered.

The commercial exhibition will include XRF techniques and further details will be available in November from the BCA admin office: BCA@glasconf.demon.co.uk

Call for papers: Offers of 15 -25 min presentations can be submitted on-line – follow the link from the web address given at the foot of this page.

Planned sessions include: XRF Exhibitors - state of the art equipment and consumables , Awkward samples (workshop), Liquid samples, Applications of WDXRF and EDXRF, Standards & Calibration and Light Element Analysis (Li-F or $\lambda > 1.3\text{nm}$).

Please help spread the word by telling your friends and colleagues about this new development that initiates a unique forum for users of XRF equipment from all suppliers.

Register your interest: If you want to be kept informed about this new XRF content, please register your interest or offer a paper on-line from:
